Detailed Steps for Enabling the WatsonLifeInstaller

STEP 1:
Download and unzip the application to your computer. On the application page use below button to download the application:

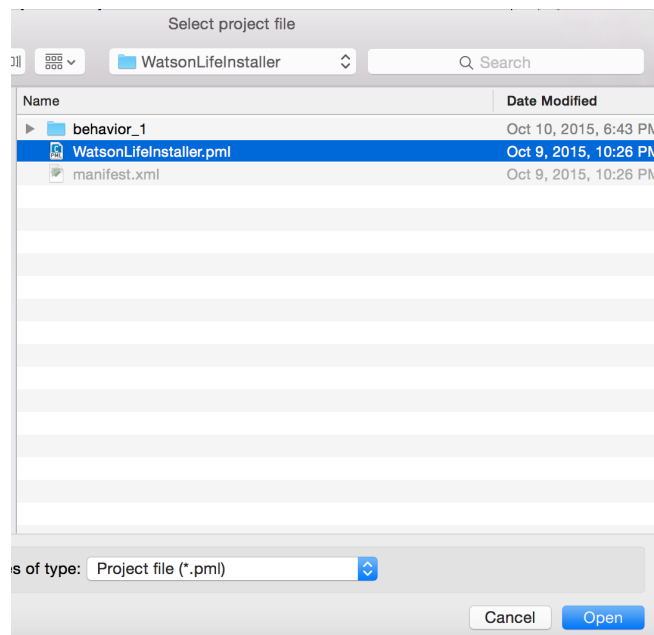

STEP 2:
Open file WatsonLifeInstaller.pml in Choreograph.

In Choregraphe click file open project as seen below:

Next change directories to the WatsonLifeInstaller.pml file and open it:

Also make sure you are connected to a robot. To do this hit the green connect button below:

Then select a robot from the list of turned on and wifi enabled robots:

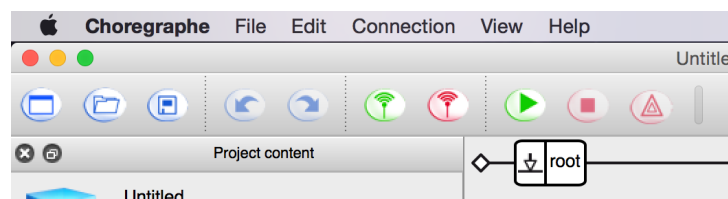

STEP 3:
Click on "Upload to the Robot Button and Play" within Choreograph. The "Upload to the Robot Button and Play" button looks like:

This is located near the top of the screen:

To finish the installation follow the steps the robot requests.
You will need a QR code to complete registration. Your QR code can be obtained from the web administration page for the robot.

* Hint: It may be easier to have the robot sit down while scanning the QR code. This can be done by double clicking the robot's chest button twice.

STEP 4:

Reboot the robot, then open Watson.cbl box library in Choreograph.

To open the Watson.cbl click the folder icon in the below window:
